

multi purpose remote speaker microphone

The SAVOX® C-C500 is the Multi Purpose Remote Speaker-microphone (lapel mic) that can be used with or without a headset. In addition to its internal microphone and speaker it is equipped with interface electronics and a rugged quick release jack that adapts any type of headset to your two-way radio. Thanks to the two large push-to-talk buttons, transmission is secured, even used from inside gear and protective clothing.

The durable and waterproof (IP 67) SAVOX® C-C500 is a communication solution that provides various optional functions for different types of applications, even used in potentially explosive environments (ATEX Approved).
